SAN FRANCISCO, Aug. 11, 2021 (GLOBE NEWSWIRE) -- WalkMe Ltd. (NASDAQ:WKME), a leading provider of digital adoption solutions, today announced financial results for its second quarter ended June 30, 2021.

"We are very pleased with the strong results we achieved in our first quarter as a public company," said Dan Adika, CEO and co-Founder of WalkMe. "The promise of digital transformation continues to challenge organizations as CIOs struggle to understand whether their technology investments are driving productivity and engagement for their employees and customers. Organizations are increasingly turning to WalkMe's Digital Adoption Platform (DAP) to gather data, generate insights, and take action on how users are interacting with software and applications across their organization to drive adoption and better ROI from their technology investments. We are in the very early innings of a large opportunity and believe that we are well positioned to capitalize on the market for Digital Adoption as we continue to invest for future growth."

Non-GAAP Financial Measures:

In addition to our financial results reported in accordance with GAAP, this press release and the accompanying tables contain the following non-GAAP financial measures: Non-GAAP Gross Profit, Non-GAAP Gross Margin, Non-GAAP Operating Income (Loss), Non-GAAP Operating Margin, Non-GAAP Net Income (Loss) attributable to WalkMe Ltd., Non-GAAP Net Income (Loss) per share attributable to WalkMe Ltd. and Free Cash Flow, all of which are non-GAAP financial measures. We believe that these measures provide useful information about operating results, enhance the overall understanding of past financial performance and future prospects, and allow for greater transparency with respect to key metrics used by management in its financial and operational decision making. Non-GAAP financial metrics have limitations as analytical tools and may differ from similarly titled metrics presented by other companies. The presentation of this financial information is not intended to be considered as a substitute for the financial information prepared and presented in accordance with GAAP. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures and not rely on any single financial measure to evaluate our business.

Non-GAAP Gross Profit and Non-GAAP Gross Margin. We define Non-GAAP Gross Profit as gross profit excluding share-based compensation and amortization of acquired intangibles. We exclude these items because they occur for reasons that may be unrelated to our core operating performance during the period, and because we believe that such items may obscure underlying business trends and make comparisons of long-term performance difficult. We use Non-GAAP Gross Profit with traditional GAAP measures to evaluate our financial performance. Non-GAAP Gross Margin is calculated as a percentage of revenues.

Non-GAAP Operating Income (Loss) and Non-GAAP Operating Margin. We define Non-GAAP Operating Income (Loss) as income (loss) from operations excluding share-based compensation and amortization of acquired intangibles. We exclude these items because they occur for reasons that may be unrelated to our core operating performance during the period, and because we believe that such items may obscure underlying business trends and make comparisons of long-term performance difficult. We use Non-GAAP Operating Income (Loss) with traditional GAAP measures to evaluate our financial performance. Non-GAAP Operating Margin is calculated as a percentage of revenues.

Non-GAAP Net Income (Loss) attributable to WalkMe Ltd. We define Non-GAAP Net Income (Loss) attributable to WalkMe Ltd. as Net Income (Loss) attributable to WalkMe Ltd. excluding share-based compensation and amortization of acquired intangibles. We exclude these items because they occur for reasons that may be unrelated to our core operating performance during the period, and because we believe that such items may obscure underlying business trends and make comparisons of long-term performance difficult. We use Non-GAAP Net Income (Loss) attributable to WalkMe

Ltd. with traditional GAAP measures to evaluate our financial performance. Non-GAAP Net Income (Loss) per Share attributable to WalkMe Ltd. is calculated based on ordinary shares outstanding after accounting for the exchange of our outstanding convertible preferred shares into ordinary shares as though such event had occurred at the beginning of the periods.

Free Cash Flow. We define Free Cash Flow as net cash provided by (used in) operating activities, less cash used for purchases of property and equipment and capitalized internal-use software costs. We believe that Free Cash Flow is a useful indicator of liquidity that provides information to management and investors, even if negative, about the amount of cash used in our business. Our Free Cash Flow may vary from period to period and be impacted as we continue to invest for growth in our business.

For more information on the non-GAAP financial measures, please see the reconciliation tables provided below. The accompanying reconciliation tables have more details on the GAAP financial measures that are most directly comparable to non-GAAP financial measures and the related reconciliations between these financial measures.
